KVK Nimpith

Krishi Vigyan Kendra, Nimpith, has been constantly providing new knowledge and skills required for adoption of latest technique and built up desirable attitude among the farming community to make optimum use of natural resources. The KVK established entrepreneurship in villages with some widely accepted technologies developed by the KVK itself. The KVK has also extended its coverage by formation of Farm Science clubs, Self Help Groups to farflung areas of the Sundarbans. Besides various extension education programme, KVK has also been implementing some of the research and extension project sanctioned by the State and Central Government like oilseed promotional programme, hybrid seed production, large scale cotton production and Insecticide Resistance Management (IRM).
